

Lighted Forceps for Foreign Body Removal

Bionix Lighted Forceps combine illumination and magnification to help healthcare providers take less time to see and safely remove ear canal and nasal passage obstructions.

PROBLEM:

Leafy objects, those that are soft and organic in shape, are difficult to grasp and remove from the ear canal or nasal cavity.

SOLUTION:

Lighted Forceps for foreign body removal combine the award winning technology of the Lighted Ear Curette™ with Magnification with the grasping ability of a forceps.

RESULTS:

An intuitive, easy to use lighted forceps great for foreign bodies of the ear and nose.
