This eco-friendly LED light consumes significantly less energy than halogens and its 50,000-hour bulb life is twice that of other LED task lights available. Efficient power consumption also means it remains cooler to the touch.

Yet it provides an industry-best, bright white light (more than 20,000 lux / 880 Lumens with a 5" diameter beam at 18") to drive clinical efficiency. Color temperature is 4000°-6000° Kelvin.
