

HAUSMANN PEDIATRIC PRODUCTS

Hausmann Industries is proud to offer all of our Pediatric Products built to our Green-Line standards. The Hausmann Green-Line is an environmentally safer alternative to traditional materials for improved air quality. Infants and children are particularly susceptible to toxic environmental substances hence we have developed greener and safer medical tables and other products for these "vulnerable" patient populations.

- Green-Line wood has no added urea-formaldehyde and exceeds CARB I and II standards.
- All urethane fabric is CAL 01350 compliant.
- PVC-Free construction.

Legrest elevates up to 90° and extends top to 70"L.
