HYDRAGUARD SKIN CREAM: THE LATEST IN THE REMEDY WITH PHYTOPLEX BREAKTHROUGH

- Breathable yet highly water-resistant film
- Blended with natural oils such as safflower oil
- Rich in oleosomes: unique technology that encapsulates moisturizers
- 24% silicone blend helps resist moisture loss

HYDRAGUARD SKIN CREAM

Silicone strength meets Phytoplex sensitivity

The Hydraguard formula provides a breathable, water-resistant film over dry, cracked skin. It's a true multi-purpose cream, that can be used all over the body but that is particularly appropriate for the perineal area or around wounds. Because of the Phytoplex formulation, it's ideal for neonates, geriatrics or anyone in between.

Care for the most fragile skin

Hydraguard restores lipids that contribute to skin integrity.

- Excellent for diabetic care and oncology patients
- Helps dry, itchy skin look smooth
- Reduces the appearance of redness
- Appropriate for perineal area skin and incontinence care
- Cosmetic formulation can be applied by CNAs and left at the bedside
- Safe for O₂ environments (hyperbaric chambers); non-flammable, non-reactive

Phytoplex nutrition for the skin

NUTRITION — The Phytoplex blend of proprietary botanical ingredients is part of a meal for your skin. Blue-green algae from mountain lakes in Oregon bathe skin with a natural mixture of proteins, vitamins, antioxidants and essential fatty acids.

REDUCING FREE RADICALS AND RESTORING THE NATURAL BARRIER — Green tea and clove flower extracts add to Phytoplex's protection of the skin from oxidizing free radicals that can lead to inflammation and irritation. Hydrolyzed soy protein, yeast extract and vitamin D help restore tight junctions between skin cells to keep moisture locked in.

Hydraguard skin cream: exclusively from Medline

When the moisture resistant properties of silicone meets the gentleness of Remedy with Phytoplex, it's skin care that's right for anyone. Ask your rep about Hydraguard today.

Item Number	Size	Packaging
MSC092532	2 fl oz (59 mL)	24/cs
MSC092534	4 fl oz (118 mL)	12/cs
